CAPABILITY STATEMENT

WATERSON GROUP

**Heavy Diesel | Mining |
Construction | Transport | Industrial**

COMPANY OVERVIEW

Waterson Group is a Queensland family-owned heavy diesel maintenance and engineering services provider delivering high-performance solutions across the mining, construction, transport and industrial sectors.

With the strategic acquisition of CQ Diesel Fitting in November 2024, Waterson Group has expanded its operational footprint, workforce capability and service coverage across Queensland.

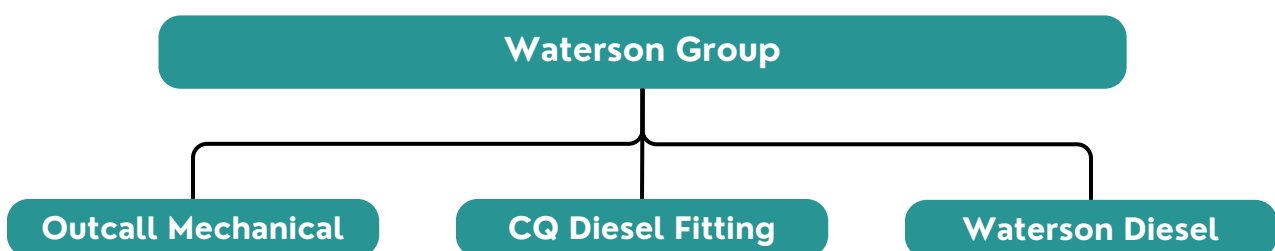

We Provide

- Multi-location workshop support
- 24/7 breakdown & field services
- Heavy equipment rebuilds & maintenance
- Crane & compliance inspections
- Transport & fleet servicing
- Specialist labour hire & maintenance management

Our Operations Are Underpinned By

- A robust Safety Management System
- Strong Environmental & ESG commitment
- Comprehensive Quality Assurance processes
- Structured governance and compliance controls

Waterson Group is committed to delivering safe, compliant and reliable maintenance solutions that maximise asset performance and minimise downtime for our clients.

LOCATIONS & COVERAGE

Waterson Group operates fully equipped workshops and field service teams in:

- Gladstone (Head Office – Central Queensland) – 14 Basset St, Callemondah, 4680
- Mackay – 120 Spiller Ave, Mackay Harbour, 4740
- Brisbane - 87 Links Ave STH, Eagle Farm, 4009
- Townsville – 21 Kiernan Drive, Roseneath, 4811

Each location is supported by modern mine-spec field service vehicles providing 24/7 breakdown and emergency response capability.

CORE SERVICES

Integrated Maintenance Solutions

DIVISIONAL CAPABILITIES

Earthmoving, Mining & Construction Equipment

Our core capability includes maintenance across all major OEM brands:

- Mining & construction equipment servicing
- Machine mid-life & full-life rebuilds
- Component overhauls
- Engine rebuilds
- Machine diagnostics & fault finding
- Material handling systems (crushers, screens, conveyors)
- Auto electrical repairs
- Machine rewires
- Paint & panel repairs
- Insurance repairs
- Air conditioning repairs & full system replacement

Access & lifting equipment:

- Scissor lifts
- Elevated work platforms
- Truck-mounted EWPs
- Crane borer trucks
- High voltage access equipment
- 90-day inspections

Labour & Maintenance

Personnel provided:

- Diesel Fitters
- Auto Electricians
- Boilermakers
- Maintenance Planners
- Maintenance Supervisors
- Maintenance Managers

Service options:

- Short-term labour hire
- Long-term embedded workforce
- On-site maintenance management
- Asset performance optimisation
- Downtime reduction strategies

Crane & Specialty Equipment

Lifting & Compliance Services:

- Pre-hire & off-hire inspections
- 12-month inspections
- 10-year certification
- Crane Safe certification
- Franna centre articulation repair & line boring
- Hydraulic cylinder reseal & repair
- Winch & rope replacement
- LMI testing & calibration
- Ropeway calibration & installation
- Palfinger crane servicing

Generators & Specialised Equipment

- Generator maintenance & management
- Lighting plants
- Fire pumps
- Water pumps
- Diesel hydraulic winches
- Purpose-built equipment
- Shunt tractors
- Supermarket backup generators
- High voltage inspections
- Test & tag services

Field Services Division

24/7 fully equipped response units capable of:

- Emergency breakdown callouts
- On-site servicing
- Diagnostic repairs
- ABS / EBS diagnostics
- Electrical fault finding
- Air conditioning repairs

ABS / EBS Diagnostics

- WABCO, Knorr-Bremse
- BPW Transpec
- Texa Multibrand Systems

DIVISIONAL CAPABILITIES

Heavy Vehicles

- Highway trucks & trailers
- Brakes, clutches, engines
- Suspension repairs
- Electrical repairs
- DPD regeneration diagnostics
- Mobile brake testing
- Wheel play detection
- 26T mobile column lifts

Specialist Fuel Tanker Maintenance

- Tanker repairs
- Hose testing
- Hydrostatic testing
- Gasket replacement
- Approved SLP – Pass 2 Load Inspection Station

SAFETY, ESG & COMPLIANCE

Health & Safety

Waterson Group operates under a robust Safety Management System aligned with Queensland WHS legislation. We are committed to zero harm outcomes.

Our Safety Framework Includes

- Risk assessment & hazard identification
- Continuous safety improvement
- Toolbox meetings & workforce engagement
- Incident reporting & investigation procedures
- Client-aligned site safety compliance

Environmental Responsibility & ESG

- Waste reduction programs
- Environmental risk management
- Pollution minimisation
- Energy efficiency initiatives
- Responsible refrigerant handling

Quality Management

Our Quality Management System ensures:

- Consistent high workmanship standards
- Structured reporting
- Audit-ready documentation
- Compliance with client & regulatory standards
- Continuous operational improvement

Governance & Administration Compliance

Waterson Group maintains strict compliance controls including:

- Licensing & certification tracking
- Site induction & training systems
- Contractor management systems
- Document-controlled procedures
- Insurance compliance
- Regulatory inspection management
- Maintenance record documentation

COMMUNITY ENGAGEMENT

Waterson Group is committed to fostering strong connections with the communities where we operate. We actively support initiatives that promote social development, well-being, and opportunities for local residents, reflecting our commitment to responsible and sustainable business practices.

Our community engagement activities include:

- Sporting club sponsorship – helping local teams and youth programs thrive
- Industry engagement – participating in events and knowledge sharing
- Community initiatives – supporting projects that benefit the wider public
- Local employment opportunities – creating jobs and skill development
- Supporting local suppliers – encouraging regional economic growth

By investing in these initiatives, Waterson Group helps strengthen social ties, promote sustainable development, and build long-term community partnerships.

Our commitment ensures that our operations deliver benefits not just to clients but also to the wider society, reinforcing our role as a responsible and socially conscious organization.

CONTACT US

Waterson Group values clear and accessible communication. Our team is always ready to assist clients, coordinate services, and respond to enquiries across all our locations in Queensland.
